6. Data Availability/Access

The data are archived at the *GIPP Experiment and Data Archive* where they are freely available for further use. When using the data, please give reference to this Scientific Technical Report STR – Data and to the respective data publication of Feld et al. (2015). Recommended citation for the data report is:

Acknowledgments

Financial support for the project has been provided by the Deutsches GeoForschungsZentrum - GFZ and the Deutsche Forschungsgemeinschaft (DFG). The seismic recorders were provided by the Geophysical Instrument Pool of the Deutsches GeoForschungsZentrum - GFZ, Potsdam (GIPP), Germany, the Bogazici University in Istanbul, Turkey, Dalhousie University, Canada and the University of Hamburg, Germany. The Geological Survey of Canada is thanked for the loan of the airguns and Dr A. Aksu for designing their mobilization system for this cruise. Field expenses for the Turkish side were provided from “Calibration of Regional Seismic Stations in the Middle East with Shots in Turkey” project (Bogazici University, Massachusetts Institute of Technology). The help of all participants in the field and the cruise MSM 14/3 is also acknowledged.
