**Legende (Legend)**

**Stratigraphische Tabelle (Stratigraphic Table):** The left side of the table lists geological stages and their subdivisions. The middle part shows the stratigraphic column with units color-coded according to the legend. The right side contains maps showing the spatial distribution of these units.

**Geologische Einheiten (Geological Units):** The legend defines various geological units, such as stages, sub-stages, and zones, with corresponding color codes and symbols.

**Geographische Einheiten (Geographical Units):** The legend defines geographical units, such as sub-regions, regions, and sub-regions, with corresponding color codes and symbols.

**Abkürzungen (Abbreviations):** The legend defines abbreviations used in the stratigraphic table, such as 'S' for Stage, 'SS' for Sub-stage, and 'Z' for Zone.

**Abkürzungen, Symbole (Abbreviations, Symbols):** The legend defines abbreviations and symbols used in the stratigraphic table, such as 'S' for Stage, 'SS' for Sub-stage, and 'Z' for Zone.

**Geographische Einheiten (Geographical Units):** The legend defines geographical units, such as sub-regions, regions, and sub-regions, with corresponding color codes and symbols.

**Abkürzungen (Abbreviations):** The legend defines abbreviations used in the stratigraphic table, such as 'S' for Stage, 'SS' for Sub-stage, and 'Z' for Zone.
