Is there an attempt to balance non-profit and corporate membership?

As stated in our Bylaws, the Board is comprised of a majority of individuals representing Members that are non-profit institutions. Every attempt is made to balance the Board by skills (technical, financial, management) and sector (academia, funding, government, publishing, etc.).

5. Researchers will be able to create, edit, and maintain an ORCID identifier and record free of charge.
6. Researchers will control the defined privacy settings of their own ORCID record data.
7. All data contributed to ORCID by researchers or claimed by them will be available in standard formats for free download (subject to the researchers' own privacy settings) that is updated once a year and released under a CC0 waiver.

INTRODUCTION | [INDIVIDUAL CONTROL](#) | [RELIABILITY](#) | [ACCOUNTABILITY](#) | [INTEGRITY](#)

ORCID's vision is a world where all who participate in research, scholarship, and innovation are uniquely identified and connected to their contributions and affiliations across disciplines, borders, and time. We provide an identifier for individuals to use with their name as they share their ideas. We provide open tools that enable transparent connections between researchers, and identifiers for their contributions, and affiliations. What may appear to be a humble alphanumeric string in fact offers crucial opportunities to engender trust and support open research.

Confidence and trust is important to us. We have put in place controls, policies, and practices so that these connections are controlled by researchers, and that the source of each connection is openly articulated.

ORCID is a community-built and community-managed organization. We have a dedicated international team that collaborates broadly to build durable and high-fidelity research information infrastructure. We are grounded by [10 principles](#) that guide our work. These principles emphasize our commitment to being a respectful, reliable, inclusive, and accountable partner of the research community. We respect the privacy and information sharing needs of the individuals that hold ORCID iDs, who control whether their information is shared and with whom. As a non-profit organization we are not incentivized to profit from information entrusted to us. We are governed by a volunteer Board elected from our membership - [organizations in the research community](#) - who ensure that we remain true to ORCID principles.

This ORCID Trust Program provides greater transparency into the components that are foundational to our principles. Click on the sections below to learn more.

ORCID TRUST

Individual control

Our tools and services provide you control over your registration, what is connected to your iD, and who can access your information. We provide system security and protection to ensure that user control is maintained.

Reliable registry

We understand that availability, security, and durability are required of the systems and services we provide for you and the organizations you work with in the research community.

Community accountability

We make ourselves accountable to all who use and support ORCID activities through our non-profit status, our membership-based sustainability model, community governance, and data dispute procedures.

Information integrity

We work with the community to enable high-fidelity connections between individuals and their contributions and affiliations. We have developed processes and tools for creating, managing, and interpreting ORCID Registry information.

Our vision

ORCID's vision is a world where all who participate in research, scholarship, and innovation are uniquely identified and connected to their contributions across disciplines, borders, and time.

Our mission

ORCID provides an identifier for individuals to use with their name as they engage in research, scholarship, and innovation activities. We provide open tools that enable transparent and trustworthy connections between researchers, their contributions, and affiliations. We provide this service to help people find information and to simplify reporting and analysis.

Our values

ORCID is a not-for-profit organization, sustained by fees from our member organizations. Our work is open, transparent, and non-proprietary. We are guided by the principles of privacy and researcher control, and the vision of identifier-enabled research information infrastructure. We make decisions collaboratively, involving our staff, Board, those who support our mission, and the researchers and community that are the purpose of our work.

We take a global view. We have a diverse team, deployed internationally in our "virtual office." We engage with a wide range of organizations and people to ensure broad viewpoints. We strive to be a trusted component of research infrastructure with the goal of providing clarity in the breadth of research contributions and the people who make them.

4.1.2 LIMITED ACCESS visible by those you trust

Accessible by:

People and Organizations I trust

- ORCID Record Holder
- Trusted Individuals and Trusted Organizations

Data marked Limited Access (visible by those you trust) may be viewed through the Registry by you and your designated Trusted Individual(s) (if any) and Trusted Organizations (if any). You can elect to share specific items with Trusted Organizations. Trusted Organizations will have these permissions for the time period that you specify, either for a single use, or until you revoke these permissions. At any time, you can elect to revoke permissions for any Trusted Organization on the Account Settings page of your Record. Under ORCID's Membership Agreement, Trusted Organizations agree not to disclose to any other person or entity Limited Access Data unless (i) such data is publicly available from another source, or (ii) the organization provides notice to you about how and to whom such data will be disclosed. However, ORCID has no control over how the organization uses the Limited Access data, including sharing it with others. Therefore, you should only grant Trusted Organization status to those that you trust.

4.1.3 PRIVATE visible by only me

Accessible by:

- ORCID Record Holder
- Trusted Individuals

Data marked as Private (visible by you) may be viewed through the Registry only by you, any Trusted Individual(s) you designate, and a Trusted Organization that added the data (if you gave it permission to do so). Private data are not shared with the public, Trusted Organizations or other Members of ORCID.

PHILOSOPHIE | WAS IST UNSERE SICHTWEISE?

Die rechtlichen Rahmenbedingungen der digitalen Welt lassen sich nicht isoliert von technischen, gesellschaftlichen, politischen, organisatorischen und wirtschaftlichen Veränderungen begreifen. Die reine Anwendung juristischen Sachverständnisses gewährleistet noch keine Integration dieses Wissens in die jeweilige Praxis. Grundlage der Anwaltskanzlei iRights.Law ist deshalb, die verschiedenen Aspekte der Digitalisierung in ihrer Verwobenheit anzuerkennen. Dabei bauen wir unter anderem auf die jahrelange Erfahrung von i.e.- dem Büro für informationsrechtliche Expertise, welches in iRights.Law aufgeht.

iRights.Law kooperiert mit dem gemeinnützig getragenen Informationsportal iRights.info sowie der Partnerschaftsgesellschaft iRights.Lab, wo in einem umfassenden Sinn Strategien für die digitale Welt entwickelt werden. Diese Kooperationen von iRights.info, iRights.Lab und iRights.Law bewirkt, dass zum einen die über den rechtlichen Bereich hinausgehende Expertise gestärkt wird, zum anderen, dass mit iRights.Law auch konkrete Rechtsberatung angeboten werden kann. Dabei bemüht sich iRights.Law darum, Gerichtsprozesse möglichst zu vermeiden, sei es durch Beratung im Vorfeld, sei es durch vertragliche Lösungen von Konflikten. Sollte es jedoch erforderlich sein, werden wir Sie auch vor Gericht vertreten.

Als spezialisierte Anwaltskanzlei beraten und vertreten wir Sie überall dort, wo es um Rechtsfragen digitaler Medien geht. Sollte dies auch mit anderen Bereichen zusammenhängen, kooperieren wir je nach Bedarf mit anderen Kanzleien und weiteren Spezialisten.

The screenshot shows the homepage of ORCID DE. At the top, the text 'ORCID DE' is centered. Below it is a navigation menu with the following items: HOME (highlighted with an orange underline), BLOG, WORKSHOPS (with a dropdown arrow), SUPPORT, PROJEKT, KONSORTIUM, and KONTAKT. The main content area features the text 'ORCID DE' in a large font, followed by the subtitle 'Förderung der Open Researcher and Contributor ID in Deutschland'. Below this, there are two columns of text. The left column explains that ORCID is a unique identifier for researchers and their publications. The right column describes the support provided by ORCID DE to universities and research institutions, including organizational, technical, and legal assistance, and mentions the creation of a central contact point for these institutions.

Die Open Researcher and Contributor ID, kurz **ORCID**, ist eine Kennung für Forscherinnen und Forscher, die ihnen u. a. die Pflege ihrer Publikationsliste erleichtert. Jede Person, die im wissenschaftlichen Arbeitsprozess einen Beitrag leistet, kann sich über ihre ORCID mit ihren Publikationen,
