About the movement

[Open Access](#) is a growing international movement that uses the Internet to throw open the locked doors that once hid knowledge. It encourages the unrestricted sharing of research results with everyone, everywhere, for the advancement and enjoyment of science and society.

Open Access is the principle that publicly funded research should be freely accessible online, immediately after publication, and it's gaining ever more momentum around the world as research funders and policy makers put their weight behind it.

The Open Access philosophy was firmly articulated in 2002, when the [Budapest Open Access Initiative](#) was introduced. It quickly took root in

A field guide to misunderstandings about open access
by liz

"The woods are full of misunderstandings about OA. They thrive in almost every habitat, and the population soars whenever a major institution adopts an OA policy. Contact between new developments and new observers who haven't followed the annual migrations always results in a colorful boomlet of young misunderstandings.

Some of these misunderstandings are mistaken for one another, especially in the flurry of activity, because of their similar markings and habitat. Some are mistaken for understanding by novices unfamiliar with the medley of variant plumage, adaptive camouflage, and deceptive vocalizations. This field guide should help you identify 25 of the most common visitors to your neck of the woods.

Leave your binoculars at home. All of these can be seen with the naked eye. With no more than this guide, and some patient observation, every trip to a conference, and even an occasional faculty meeting, can be an enjoyable and educational outing".

National Day of Action on **OPEN ACCESS**

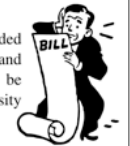

Did you know...

... that academic journals cost 156% more than they did ten years ago, with prices reaching upwards of \$10,000, even though the cost of producing them has gone way down?

... that most of the cost of your coursepack goes to getting permission from publishers — even for using your professor's own work?

... that most research funded through university and taxpayer dollars has to be bought back by the university at extremely high prices?

... that some leading academics are confronting this problem, by publishing in journals freely available to the world — and their numbers are growing?

February 15 has been declared **National Day of Action on Open Access**. It's time to take a stand against the rising prices of journals & coursepacks and unfair monopolies on research paid for by taxpayers.

Open Access Directory: Open Access Day 2008

● <http://oad.simmons.edu>

The screenshot shows the Open Access Directory website. The main heading is "Events celebrating Open Access Day". Below the heading, there is a list of information and links:

- This list is sponsored by the founding partners of [Open Access Day](#) -- [PLoS](#), [SPARC](#), and [Students for Free Culture](#).
- The last OA day was *October 14, 2008*. Because the worldwide response was so large, in 2009 the sponsors decided to coordinate an [Open Access Week](#) instead.
- The list began as a database at SPARC and moved to the OAD on October 4th 2008 for community editing.
- Related lists in OAD: (1) [Audio about OA](#); (2) [Educational materials about OA](#); (3) [Events](#) in general (Conferences and workshops related to OA); (4) [Events celebrating Open Access Week](#); (5) [Video about OA](#).
- Alphabetical by continent.
 - [Africa: Open Access Day 2008](#)
 - [Asia: Open Access Day 2008](#)
 - [Australia and New Zealand: Open Access Day 2008](#)
 - [Europe: Open Access Day 2008](#)
 - [North America: Open Access Day 2008](#)
 - [South America: Open Access Day 2008](#)

At the bottom of the main content area, there is a search bar with the text "Categories: Events about OA | Advocacy for OA | Sponsored lists".

On the left side, there is a navigation menu with the following sections:

- open access directory
 - [Contribute content](#)
 - [Register and log In](#)
- navigation
 - [Main Page](#)
 - [Community portal](#)
 - [Current events](#)
 - [Recent changes](#)
 - [Random page](#)
- interaction
 - [About OAD](#)
 - [Editorial Board](#)
 - [Editorial Policy](#)
 - [Contact OAD](#)
 - [Special Thanks](#)
 - [Help](#)

At the top right of the page, there is a "Log in / create account" link.

● Statements

I support Open Access

"I do not know how business people, students or academics can survive in their working environments without Open Access. It has really made my life and work much easier and a lot more enjoyable. I have immediate information at my fingertips and sometimes even a few surprising new insights - that I have not had access to before - pop up on my computer screen. I wholeheartedly support Open Access."

Prof Ronel Rensburg
Dept. Marketing and Communication Management
Faculty of Economic & Management Sciences

[https://www.up.ac.za/dspace/bitstream/2263/7550/1/Olivier_Have\(2008\).pdf](https://www.up.ac.za/dspace/bitstream/2263/7550/1/Olivier_Have(2008).pdf)

Beispiel: University of Alberta

● Statements

"Most research activities are funded by the taxpayer. Yet the results are published in restricted and often for-profit journals. The unrestricted nature of

the Open Access system has made the result of discoveries and developments accessible to the public without compromising the quality of the publicized information. The *Journal of Pharmacy & Pharmaceutical Sciences*, the first free and open access peer-reviewed journal in the field, owes its eleven year success to the inherent nature of such a system."

Fakhreddin Jamali, Ph.D.

Editor, *Journal of Pharmacy & Pharmaceutical Sciences*

<http://blogs.library.ualberta.ca/oa/wp-content/uploads/2008/10/wesupportoa.doc>

We Support Open Access

What is Open Access?

Open Access is a growing international movement that uses the Internet to throw open the locked doors that once hid knowledge. Encouraging the unrestricted sharing of research results with everyone, the Open Access movement is gaining ever more momentum around the world as research funders and policy makers put their weight behind it.

Why Does Open Access Matter at the University of Alberta?

"Open Access brings research to the virtual doorsteps of scholars, students and the public, around the world. For those in developing countries, with limited access to traditional (print) journals, the ability to read, review and publish in Open Access journals facilitates scholarly communication on the most current advances in research, across the disciplines."

Lisa M. Given, Ph.D.

Director, International Institute for Qualitative Methodology and Associate Editor, *International Journal of Qualitative Methods*

"As an editor, I believe I have an obligation to ensure the widest possible global readership for the scholars who publish in our journal. Open access is the best way we have to accomplish this goal."

Kevin D. Haggerty, Ph.D.

Editor, *Canadian Journal of Sociology*

activities are funded by the taxpayer. Yet the results are published in restricted and often for-profit journals. The unrestricted nature of the Open Access

system has made the result of discoveries and developments accessible to the public without compromising the quality of the publicized information. The *Journal of Pharmacy & Pharmaceutical Sciences*, the first free and open access peer-reviewed journal in the field, owes its eleven year success to the inherent nature of such a system."

Fakhreddin Jamali, Ph.D.

Editor, *Journal of Pharmacy & Pharmaceutical Sciences*

"Open Access offers great flexibility for content management while providing international exposure, which is crucial for journals dealing with minority issues like *Alternative Francophone and TransculturAI*."

Sathya Rao, Ph.D.

Coeditor, *Alternative Francophone and TransculturAI*

"Most research

Schedule of Events

Introduction to Open Access & cIRcle: UBC's Information Repository

11am – 12:20pm

Joy Kirchner and Hilde Colenbrander (UBC Library)

Using Wikipedia in the Classroom: an OA medium for research and student work

1 pm – 1:40 pm

Dr. Jon Beasley-Murray (Department of French, Hispanic and Italian Studies, UBC)

The Public Knowledge Project: providing open source software for OA publishing

2 pm – 2:40 pm

Brian Owen (SFU Library)

Open Medicine: a peer-reviewed, independent, open-access general medical journal

3 pm – 3:40 pm

Dr. Anita Palepu (Internal Medicine, UBC)

OA Day Worldwide Webcast: taxpayer access to publicly funded research

4 pm – 5 pm

Keynote address: Sir Richard Roberts, Ph.D., F.R.S

Come and celebrate the world's first Open Access Day!

Tuesday, October 14, 2008

11:00 am - 5:00 pm

Irving K. Barber Learning Centre, Dodson Room (302)

UBC Library has joined SPARC (the Scholarly Publishing and Academic Resources Coalition), the Public Library of Science (PLoS), and Students for FreeCulture and 65 other institutions in the First International Open Access Day.

What is Open Access? Open Access is a growing international movement that uses the Internet to throw open the locked doors that once hid knowledge. It encourages the unrestricted sharing of research results with everyone, everywhere, for the advancement and enjoyment of science and society. (From: <http://openaccessday.org/what-is-open-access>)

To help us celebrate this event we are proud to present a number of distinguished speakers in our community who will be describing how they participate in the open access movement.

- Creative Commons and Open Access
- Copyright, Publishing, and Open Access Essentials
- Open Access Table at the U-M Hospital Triangle
- Open Access and the Academy: A Lively Discussion on The Future of Scholarly Publishing
- Natural Language Processing: Legal Challenges
- So You Want to Start a Journal?
- Beyond Open Access: Creating Open Educational Resources (OER)

Creative Commons and Open Access

Monday, March 23rd, 11:30 am - 1:00 pm

Nathan Yergler, CTO of Creative Commons, will talk about the impact of Creative Commons licenses on Open Access, what challenges still exist even for proponents of Open Access, and what Creative Commons is doing to build an ecosystem of openness.

Location: School of Information in West Hall, Room 311

Copyright, Publishing, and Open Access Essentials

Monday, March 23rd, 2:00 pm - 3:00 pm

Copyright specialist Molly Kleinman and Director of Deep Blue Jim Ottaviani will present a workshop on copyright, publishing, and open access basics for researchers. This session will provide an introduction to copyright questions that most affect scholarly authors, with a focus on ways to increase the impact of your work by improving access to it.

Location: Taubman Medical Library, Room 2903

Open Access Table at the U-M Hospital Triangle

Monday, March 23rd, all day

Drop by to talk to pick up information, learn about the NIH Public Access Policy, and talk to a librarian about your publishing questions.

Location: The Hospital Triangle

Open Access and the Academy: A Lively Discussion on The Future of Scholarly Publishing

Listen to an audio recording of the panel

Tuesday, March 24th, 4:00 pm - 5:30 pm

Four speakers from a range of disciplines and backgrounds representing both commercial publishers and the international open access movement will consider a range of questions about the purpose of Open Access and its implications for public access to knowledge. The discussion will be moderated by University Librarian Paul Courant and features:

— Jasna Markovac, Senior Advisor to the Dean at the University of Michigan Library (serves on the University Library Leadership Council)

— Julia Blixrud, Assistant Director for Public Programs, Scholarly Publishing & Academic Resources Coalition (SPARC)

— Jean-Claude Guédon: Professor of Comparative Literature at the Université de Montréal, board member at Open Humanities Press

— Vivian Siegel, Research Professor of Medicine, Vanderbilt University

Location: Hatcher Graduate Library Gallery, First Floor

Natural Language Processing: Legal Challenges (Sponsored by Health Informatics Grand Rounds)

Watch video of the presentation

Wednesday, March 25th, 12:00 pm - 1:00 pm

An informational presentation about the kinds of resources that the Library provides to support natural language processing research and the role that open access can play in supporting NLP. The workshop features:

— Jean Song (Moderator), Bioinformaticist

— Jack Bernard, Assistant General Counsel, Law Professor

— Kathleen Folger, Electronic Resources Officer, University Library

— John Wilkin, Associate University Librarian, Executive Director of Hathi Trust

Location: Biomedical Science Research Building Auditorium

So You Want to Start a Journal?

Thursday, March 26th, 4:00 pm - 5:30 pm

Members of the Library's Scholarly Publishing Office staff will walk you through all the steps it takes to start a new journal, from the first discussions with a publisher to soliciting submissions and making design decisions.

Location: Hatcher Graduate Library Gallery, First Floor

Beyond Open Access: Creating Open Educational Resources (OER)

Materials from the workshop available for download

Friday, March 27th, 10:00 am - 12:00 pm

This workshop will begin with a light-hearted round of "Copyright Jeopardy" to test your copyright knowledge. Workshop participants will learn how to create educational content that can be shared and reused by students, educators, and self-learners worldwide; how to find places to search for openly licensed content, and how to effectively license your own content using Creative Commons licenses.

Location: Hatcher Graduate Library Gallery, First Floor

Open Access Week - October 19-23, 2009

To broaden awareness and understanding of Open Access

The screenshot shows the Open Access Week website interface. At the top is a banner with the text "OPEN ACCESS WEEK" and the URL "openaccessweek.org". Below the banner is a navigation menu with links for "Home" and "About". A "PAGES" section lists various resources like "About OA week", "About the OA movement", "Event in a box", "List of participants", "Spread the word", "T-shirts and buttons - freebies", and "You can sign up". A "TAGS" section lists "DOAJ", "eIFL News", "Bireme", "OASIS", "Open Access Day", "Open Access Week", "Open Access Year", "Peter Suber", "PLOS", and "Public". The main content area features an article titled "A field guide to misunderstandings about open access" by Liz, with a quote: "The woods are full of misunderstandings about OA. They thrive in almost every habitat, and the population soars whenever a major institution adopts an OA policy. Contact between new developments and new observers who haven't followed the annual migrations always results in a colorful boomlet of young misunderstandings." Below the quote is another paragraph: "Some of these misunderstandings are mistaken for one another, especially in the flurry of activity, because of their similar markings and habitat. Some are mistaken for understanding by novices unfamiliar with the medley of variant plumage, adaptive camouflage, and deceptive vocalizations. This field guide should help you identify 25 of the most common visitors to your neck of the woods." A final paragraph reads: "Leave your binoculars at home. All of these can be seen with the naked eye. With no more than this guide, and some patient observation, every trip to a conference, and even an occasional faculty meeting, can be an enjoyable and educational outing". At the bottom of the article, it says "The above courtesy of Peter Suber's blog, [learn more about the](#)". To the right of the article is a "SEARCH THIS SITE" box with a search input field and a "PARTNERS" section listing logos for PLoS, SPARC, students for free culture, eIFL.net, OAD, and OASIS.
