1. IUGG Bureau Requesting Guidance for Strategic Planning

During the month of May, Associations and Member Countries will receive questionnaires from the IUGG Bureau intended to survey their opinions regarding the structure and procedures of the IUGG. Our intent is to modernize and improve. IUGG will appreciate your immediate attention and response when these questionnaires arrive.

2. IAMAS Grants to attend Assembly exceed \$43,000

The IAMAS Scientific Assembly will be held July 10-18, 2001, in Innsbruck, Austria. Prof. Roland List, Secretary-General of IAMAS, reports that 57 scientists (including 13 young scientists) from 27 countries have been approved for travel assistance totaling US \$ 43,878. Dr. List noted that the total includes a contribution of \$ 5000 from the World Meteorological Organization. For additional information about the Assembly, visit the IAMAS web sites <http://meteo.uibk.ac.at/IAMAS2001> or www.iamas.org/.

3. Peter Wyllie to receive Roebing Medal

Peter Wyllie, immediate Past-President of the IUGG, has been awarded the 2001 Roebing Medal of the Mineralogical Society of America. It will be presented at the Annual Meeting of the Geological Society of America in Boston, Massachusetts, on November 6th. The Roebing Medal is the highest award of the Mineralogical Society of America for scientific eminence as represented primarily by scientific publication of outstanding original research in mineralogy.

4. IUGG meetings occurring during May-July, 2001

A calendar of meetings of interest to IUGG disciplines (especially those organized by IUGG Associations) has been added to the IUGG Web Site [www.IUGG.org]. More information about these meetings can be found there. Individual Associations also list more meetings appropriate to their disciplines. For example, the International Association of Hydrological Sciences (IAHS/AISH) has a complete "meetings" section on their web site: <http://www.cig.ensmp.fr/~iahs>.
