

TIB

GERMAN NATIONAL LIBRARY OF
SCIENCE AND TECHNOLOGY

Audiovisual preservation for GIS communities GRASS GIS, Star Trek and old Video Tape

Peter Löwe
GIS day 2014
Potsdam, November 19 2014

German National Library of Science and Technology

German: Technische Informationsbibliothek (TIB)

- **largest science and technology library globally**
 - over 9 Mio. items,
 - 180 Mio. Documents (GetInfo Portal)
 - **125 km of shelving**
- **German National Library for**
 - **technology as well as civil engineering, chemistry, computer science, mathematics and physics**
- funded by the Federal Ministry of Education and Research and the 16 German states.
- **the world's first Digital Object Identifier (DOI) registration agency** for research data sets (since 2005).
- operates in conjunction with the **Leibniz University, Hannover.**

The Library Angle: Science + Open Source = Open Science

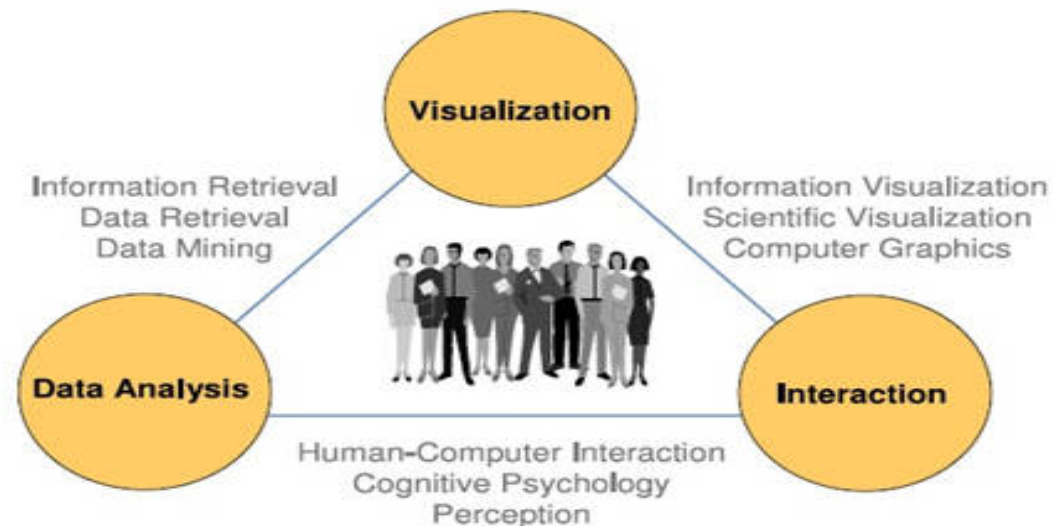

Science advances only if knowledge is shared.

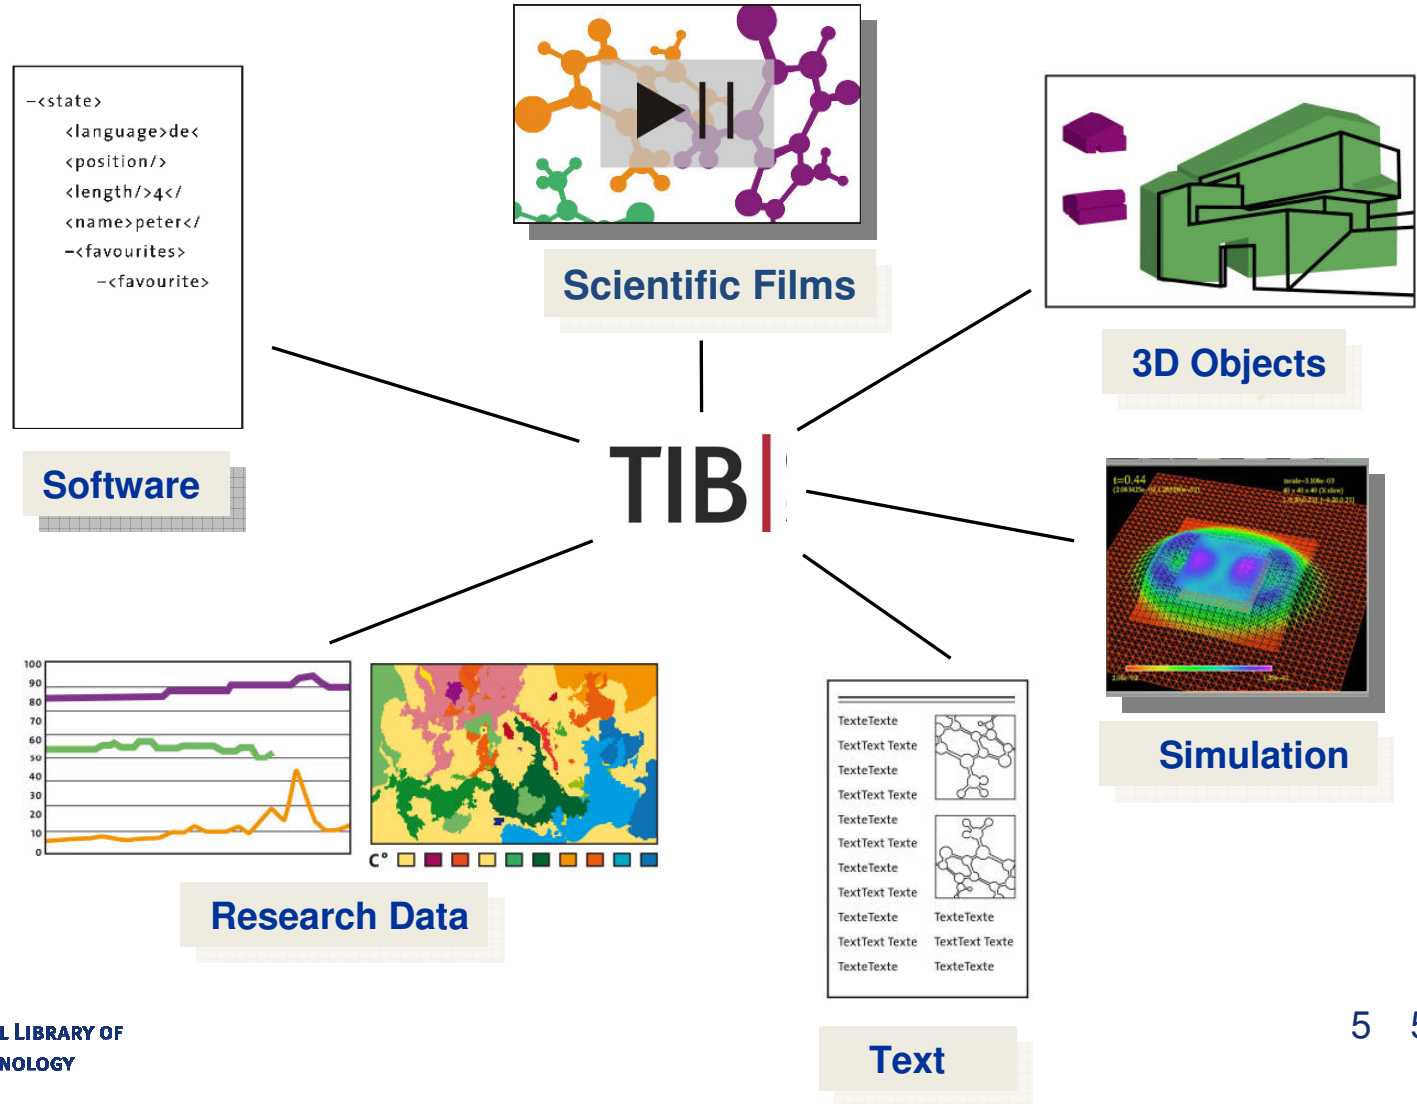

***Accelerating the sharing of scientific knowledge
accelerates the advancement of science.***

Applied research topics at TIB

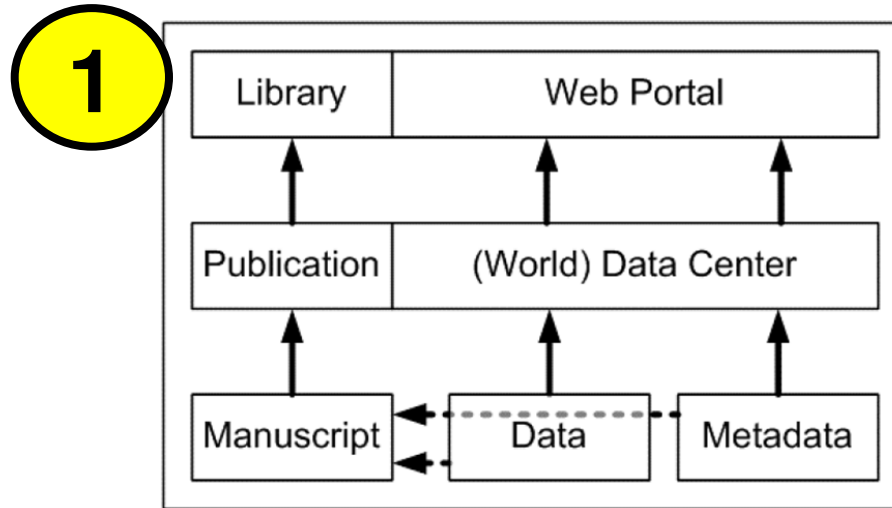

- Visual Analytics
- Content based Retrieval
- Ontologies
- Science 2.0 and Open Science

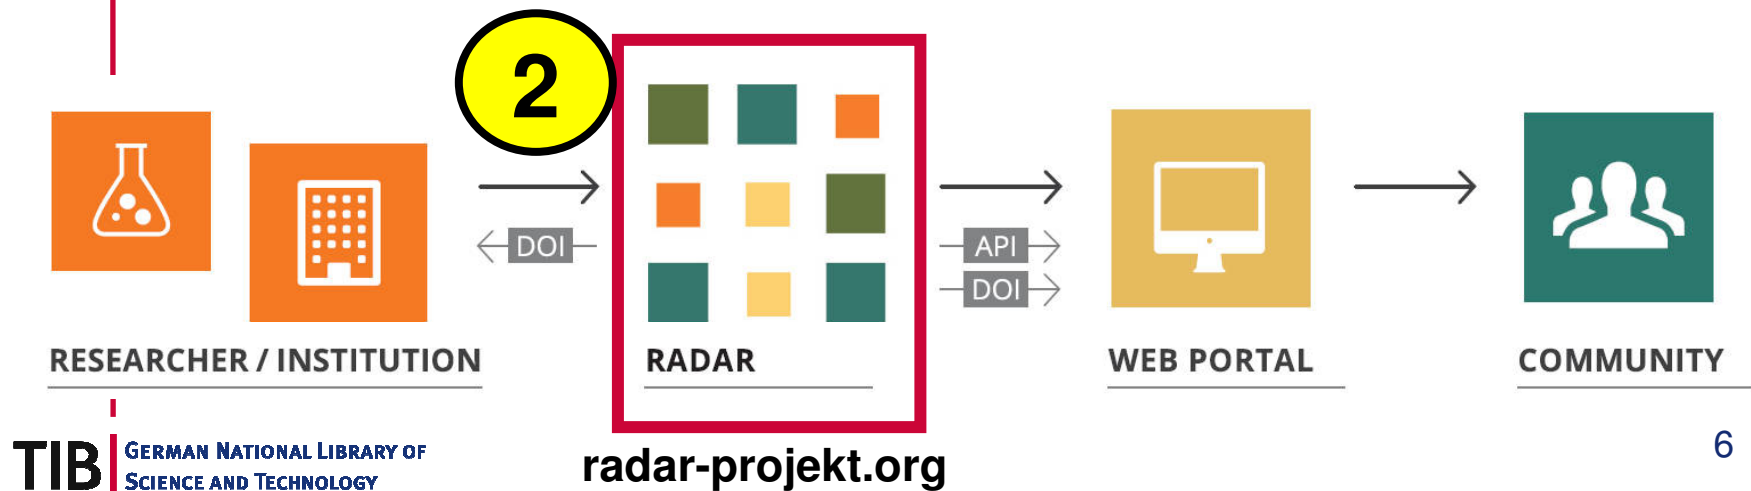

Strategy – Move beyond text

Preserving Research Data: Research Data Repository Project (RADAR)

Klump, et. al, Data Publication in the Open Access Initiative, Data Science Journal, Vol. 5, 15 June 2006.

Towards data-driven Libraries

*„While scientists focus on the final frontier,
(data-driven libraries) will work on designing
a different kind of space
full of physical and virtual tools
that
capture imagination and
enable researchers to explore it.“*

<http://thrilling-tales.webomator.com>

Christopher Erdmann, 2014

John G Wolbach Library at the Harvard-Smithsonian Center for Astrophysics

Geospatial: the rapid growth of valuable information

The library perspective

• Looking back: Heritage in geospatial projects

- comprises **software, data** and **all auxiliary documentation**
- **is valuable**
- needs to be **preserved, accessed** and **cited** in a sustainable way
- to provide **credit** and **recognition** for its creators.
- OSGeo / FOSS GIS: Unique treasure trove for data mining

Topic
for
today

• The Present: Getting credit for your work + future saving

• Looking ahead: Answers to new challenges + credit for it

- Connecting software, data and auxiliary information
- Growing standardisation
- Networking & career development
- Innovation scouting

GRASS GIS

A reference case for heritage in open geospatial research

GRASS GIS: Geographic Resources Analysis Support System

- Development started in 1982
- <http://grass.osgeo.org>
- GPL-licenced
- Current versions:
 - **GRASS 6.4.4**
 - **GRASS 7.0 (beta)**
- Volumes, rasters, topological vectors
- Temporal data

Available on the GFZ HPC Cluster
(contact Rechenzentrum for details)

The GRASS community

Alive, kicking – and growing

GRASS GIS is going strong
- for over 30 years

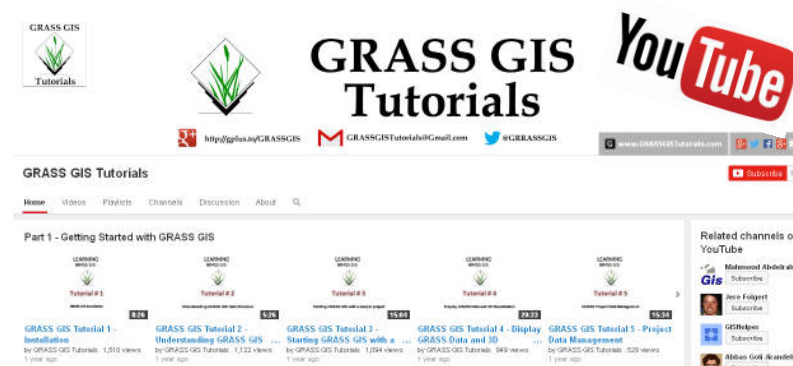

GRASS is people

- New generations of developers and users emerge
- People address new problems
- People retire from the project
- The GRASS history trail is growing
- **Knowledge + skill needs to be preserved**

Video portals to share knowledge

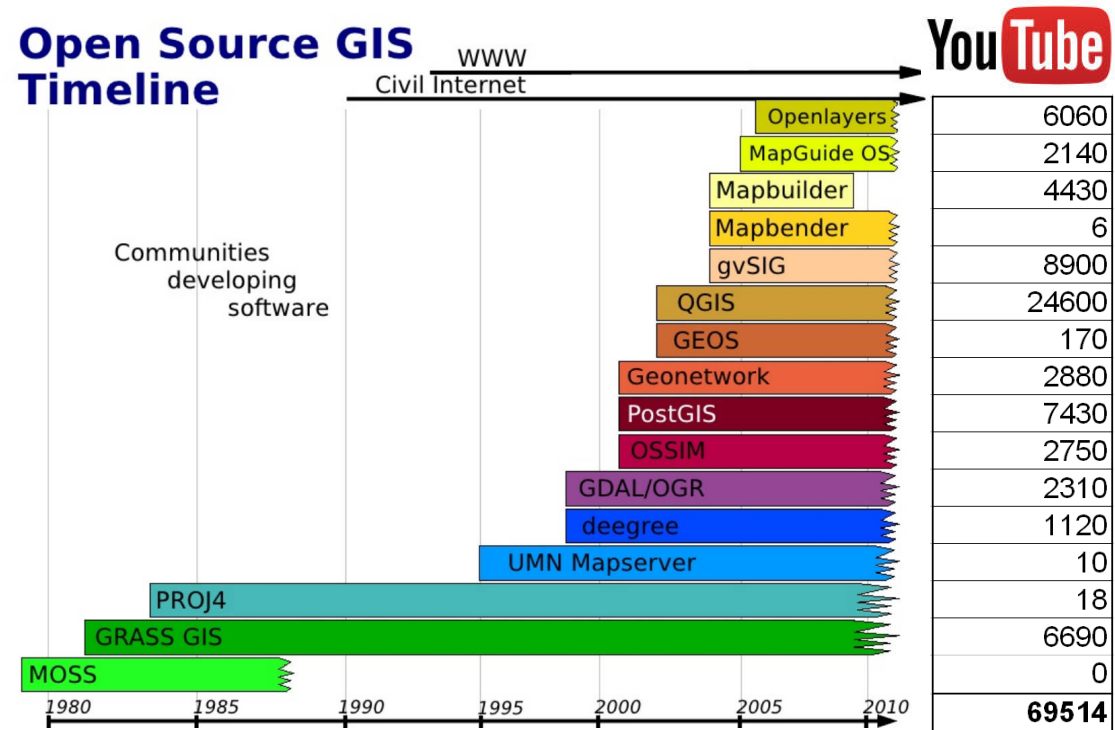

- **After 30 years: Still nobody likes to write documentation**
- **YouTube and slideshare are heavily used**
to announce new software and its use.
- **Web 2.0 audiovisual Webportals have become**
a large treasure trove of „howto“ knowledge

Geospatial Open Source Projects: The rise of interconnected tools and mash-ups

Existing Free and Open Source GIS communities continue to grow

- New communities emerge
- Mash-ups „interbreed“ existing functionalities

Source: Markus Neteler

Library Angle: The inconvenient truth

Reality Check 2014:

Current communication channels (Web 2.0) to communicate „GIS how-to“ are

- volatile,
- difficult to search and
- hard to cite.

Klump, et. al, Data Publication in the Open Access Initiative, Data Science Journal, Vol. 5, 15 June 2006 nach Helly, Staudigel & Koppers, 2003

Research library perspective

Ultimate Goal:

Interlinking and Search Across All Types of Digital Assets.

What about ...

STAR TREK

Let's go back to the 1980s

Sol Katz

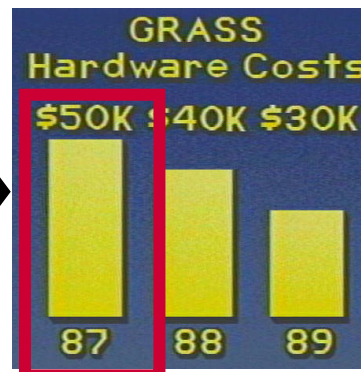

The early days of GRASS GIS

Year	Installations	GRASS Version
1982	1	-
1983	3	-
1984	5	-
1985	20	GRASS 1.0
1987	100+	GRASS 2.0
1988	1000+	GRASS 3.0

Sun 150U

2014: 70k EUR

The 1987 promotional GRASS GIS video

- 1987: USA-CERL has a video for GRASS GIS produced.

**US Army Corps
of Engineers®**

- Narrated by William Shatner (a.k.a. James Tiberius Kirk of Star Trek)

- Video was distributed on VHS tapes

GRASS GIS: The starting point of OGC standards

Markus Neteler, 2013

OGC™
Open Geospatial Consortium, Inc.

Bridging the digital divide - 2004

1990s

While the GRASS project evolved and addressed new kinds of geospatial challenges,

the GRASS video tape became legendary – and a preservation/access issue.

2004

A VHS copy is digitized.

.mov-file on the GRASS web portal

The GRASS Story Video

[Watch the video](#) (64 MB, 14 minutes, USA CERL, 1987)

The U.S. Army Corps of Engineers Construction Engineering Research Laboratory produced this video to explain basic concepts and potential applications of geographic information systems to land managers at Army installations. Although the GRASS GIS is mentioned, the overall presentation of GIS topics is fairly generic. The video present a good, basic introduction to GIS that makes reference to GRASS (GRASS-GIS).

2011

The video is uploaded to YouTube with limited Metadata

GRASS MOVIE CERL 1987

by [Miguel Sevilla-Callejo](#) • 3 years ago • 9,948 views

Downloaded from http://grass.osgeo.org/grass_movie_CERL_1987/ The basics of GIS are almost the same today I though ...

The challenge according to WIRED

2013

- Wired magazine features the GRASS movie in an online article and describes both its **limbo status** and **significance**, being a **historic document**:

WIRED

- **Absence of references/links to the movie:**
 - *not on the International Movie Database (IMDB)*
 - *not on Wikipedia*
 - *not on Mr. Shatners website*

MapLab  HERE BE DRAGONS

Video Flashback 1987: Shatner Tells You Where You Can Stick Your Maps

BY BETSY MASON | 08.07.13 | 6:30 AM | PERMALINK

Source: <http://www.wired.com/2013/08/shatner-loves-digital-maps/>

2014: Bridging the digital divide - again

The GRASS 1987 video on the TIB AV-Portal

The screenshot shows the TIB AV-Portal website interface. The browser address bar displays 'https://av.getinfo.de/search?5'. The page header includes the TIB logo, 'AV-PORTAL BETA', a language dropdown set to 'English', and the full name 'TIB GERMAN NATIONAL LIBRARY OF SCIENCE AND TECHNOLOGY'. Below the header is a navigation bar with links for Home, Subjects, Publisher, and About AV Portal, along with Watchlist, Upload, Login, and Register buttons. A search bar contains the text 'GRASS'. The search results section shows '30 Results' with sorting options for Relevance, Title, and Release Date. A filter sidebar on the right lists subjects: Physics (9), Biology (5), and Information technology (5). The main content area displays four video thumbnails, with the first one highlighted by a yellow arrow pointing from the left. The second thumbnail is titled '3.1 Texture Analysis' and includes a brief description of texture analysis.

- A high resolution version of the GRASS 1987 video is available:
 - **Citable**
 - **Searchable**
 - **Long term preserved for the future.**

Enhanced search capabilities: Navigation by film segments and search strings

The screenshot displays a video player interface. At the top, a video frame shows a person with long hair looking at a book titled 'BRISS'. Below the video frame is a 'Visual index' represented by a horizontal bar with red and grey segments. A red callout box points to a specific segment in the index, stating 'This segment contains your search result.' Below the index bar, a legend indicates that a red square represents 'Results found'. The video player controls at the bottom show a progress bar at 00:32 / 14:26, along with play, volume, and full-screen icons. A citation string is visible at the bottom: 'Citation of Segment <http://dx.doi.org/10.5446/12963/#=00:30:00:32>'.

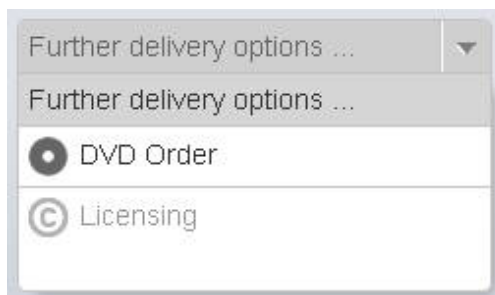

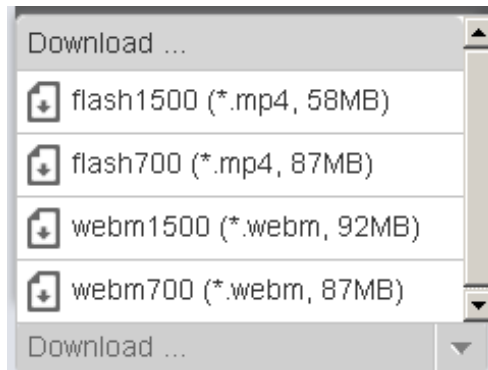

Visual index

This segment contains your search result.

■ = Results found

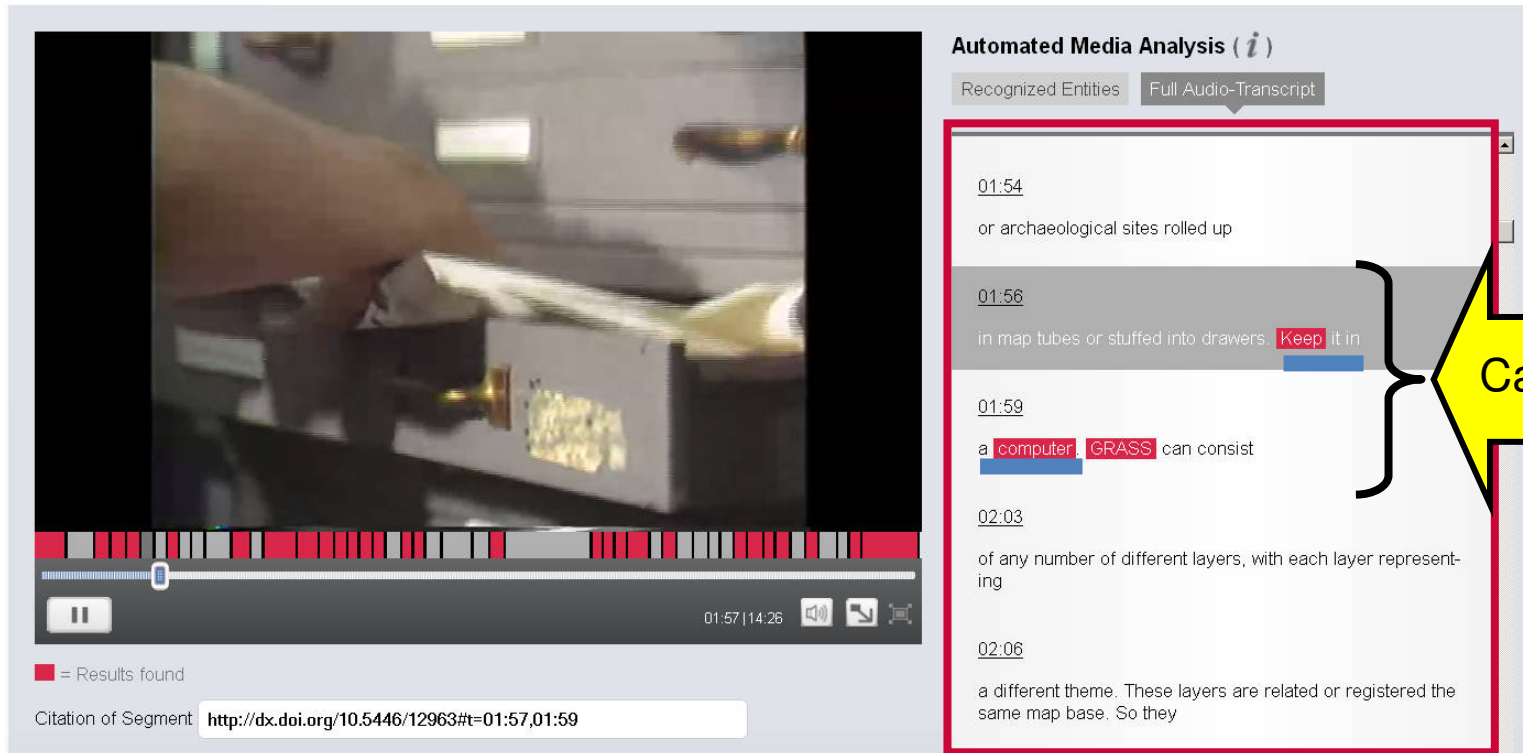

Citation of Segment <http://dx.doi.org/10.5446/12963/#=00:30:00:32>

Download Options

- New (open) formats will be added in the future.

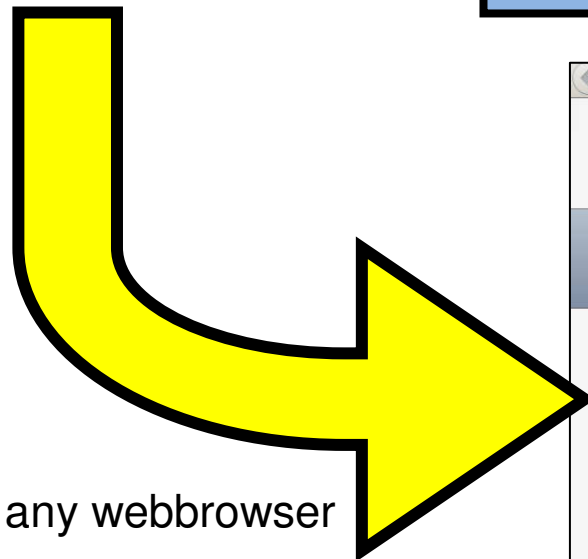

Navigation by audio-transcript

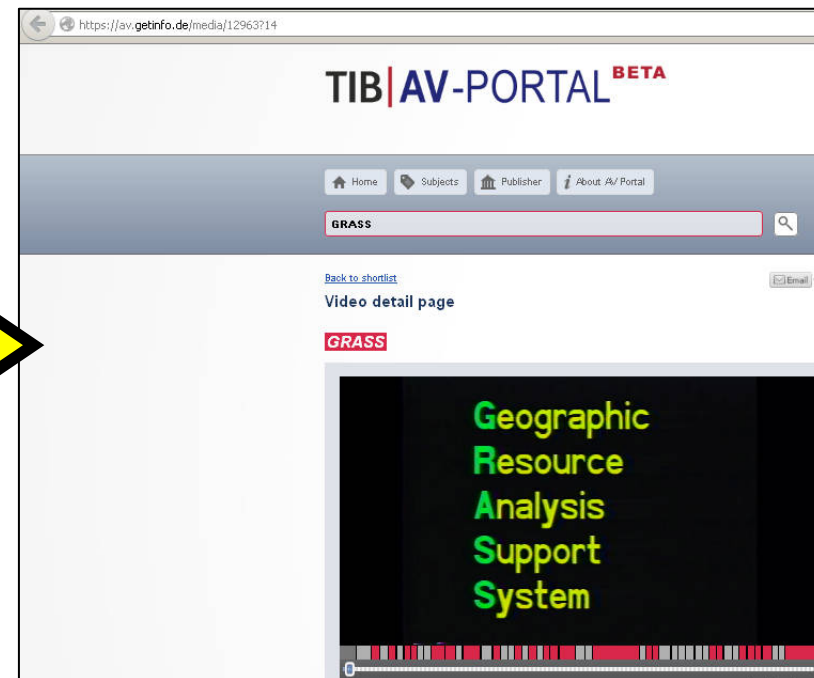

The screenshot shows a video player interface. On the left, a video frame shows a hand interacting with a device. Below the video is a progress bar and a legend indicating that red bars represent 'Results found'. A citation of the segment is provided: <http://dx.doi.org/10.5446/12963#t=01:57,01:59>. On the right, an 'Automated Media Analysis (i)' panel is open, showing a 'Full Audio-Transcript' view. The transcript includes the following text: '01:54 or archaeological sites rolled up', '01:56 in map tubes or stuffed into drawers. Keep it in', '01:59 a computer. GRASS can consist', '02:03 of any number of different layers, with each layer represent- ing', and '02:06 a different theme. These layers are related or registered the same map base. So they'. A yellow arrow labeled 'Caption' points to the transcript text.

Content referencing by Digital Object Identifiers (DOI)

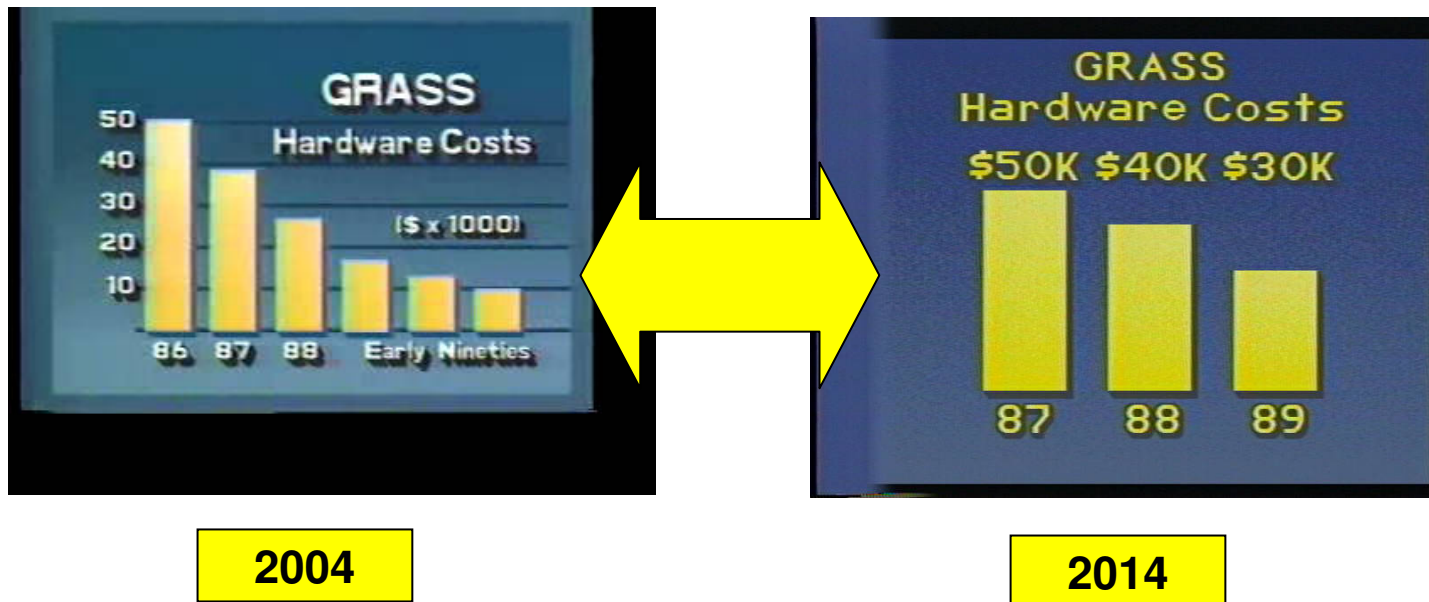

... opens in any webbrowser
at the right time frame

Surprise: A director's cut ?

- Multiple small but notable differences in the versions digitized in 2004 and 2014 !

The differences can be referenced by DOI-MFI links (DOI + Timestamp)

The road ahead

TIB | AV-PORTAL ^{BETA}

TIB AV-Portal

- Switch to operational status in 2015
- More coming: Integration of ORCID, IMDB links, etc.

GRASS 1987 Video

- The low-res alternative version will also be archived for reference

GIS / Geoinformatics-related content

- The search for historic FOSS GIS videos continues.

Upcoming challenge: Physical heritage in a virtual community

- *W. Shatner autographed the cover of the GRASS Manual in 1987.*
- *Passed on from „80s GRASS caretaker“ (Marji Lawson) to the current GRASS community.*

***„For the Grass team
Will Shatner“***

Upcoming challenge: Physical heritage in a virtual community

- W. Shatner autographed the cover of the GRASS Manual in

Tweet by Michael D Gould (ESRI):
oh, so the GRASS manual signed by William Shatner is a **reality** not just a joke. Shown live at #foss4g
Sept. 12, 2014

For the Grass team
Will Shatner

**„For the Grass team
Will Shatner“**

Thanks for listening

Visit the AV-Portal: <http://av.getinfo.de>

- Watch the GRASS GIS video [DOI]
 - Watch the GRASS codeevolution video [DOI]
 - Explore the content & use it in your work
 - Got content ? Contact us !
-
- **Publish and share your work:**
 - Code + data + auxiliary content
 - **Check out the RADAR project on data preservation**
 - Opportunity: Meeting on Nov 20-21 at Haus H, GFZ
 - **Participate in the OSGeo communities**
